

Tyre Rotation plan - CV

Tyre Rotation

5000km Rotation

Front Axle :- Side to side
Rear Axle :- Inner to outer
on same side

10000km Rotation

Front Axle :- Side to side
Rear Axle :- Side to side

15000km Rotation

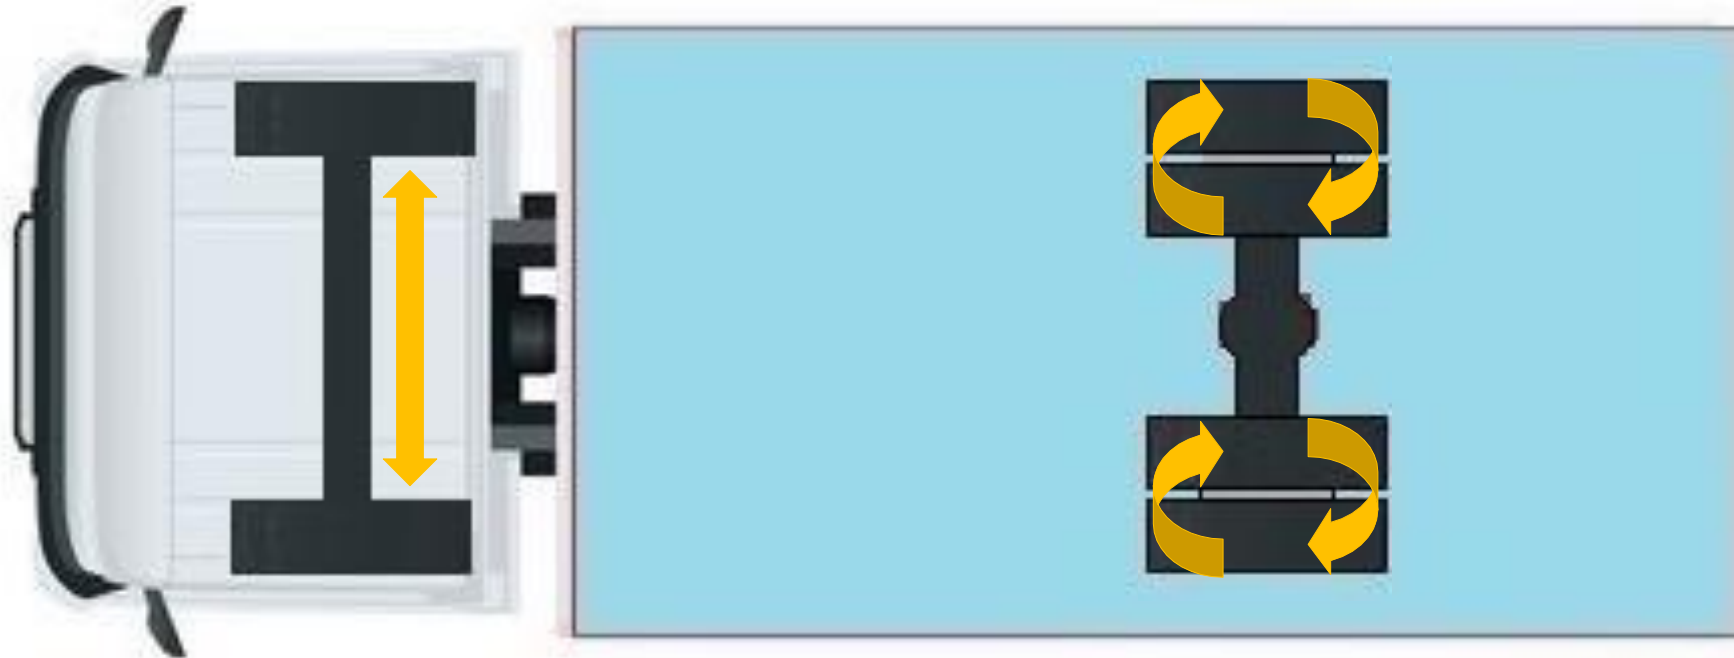

Front Axle :- Disc out
rotation
Rear Axle :- Diagonal

Importance of proper inflation

Under inflation :

More shoulder wear

Over inflation :

More center wear

Proper inflation :

Normal/proper wear
